OFFICE OF THE PROVOST

6 April 1966

Professor Joshua Lederberg
Department of Genetics
Stanford University School of Medicine
Palo Alto, California 94304

Dear Professor Lederberg:

I want to express my appreciation and that of the University for your very explicit and helpful reply to the questions I raised about a Department of Genetics.

Your reply and its enclosures have been turned over to our Science Advisory Committee, and I know that I can in advance offer their thanks as well.

Sincerely yours,

Arthur M. Ross
Assistant to the Provost
for the Sciences
